

NOTICE

SPRAYING AGAINST MOSQUITOES

This is for the general information of all concerned citizens that the San Bernardino County Vector Control Program, Division of Environmental Health Services, will be spraying to control mosquitoes, using a truck-mounted, ultra-low volume spray of Scourge, containing resmethrin and PB, within the area bordered by Arrow Blvd., Alder Ave., Randall Ave., and Mango Ave. (SEE MAP).

Weather permitting, the spraying will be done on **Friday, June 25, 2004** **BETWEEN 5:30-6:30 a.m.** In case of inclement weather conditions, the spraying will be rescheduled for **Monday, June 28, 2004 BETWEEN 5:30-6:30 a.m.**

1. Stay indoors, do not breathe the spray mist and avoid outdoor activity for 1-2 hours after treatment.
2. Keep your windows and doors closed.
3. Keep your pet animals in proper shelters, and cover outdoor fish ponds.
4. Park your cars and other vehicles off the street to allow for maximum spray coverage.
5. All sensitive people take extra precautions.

THIS IS NOT AN AERIAL MALATHION SPRAYING.
